In **Bill Gates'** book, *Business @ The Speed of Thought*, he lays out 11 rules that students do not learn in, but should. He argues that our feel-good, politically correct teachings have created a generation of kids with no concept of reality who are set up for failure in the real world

Rule 1. Life is not fair; get used to it.

Rule 2. The world won't care about your self-esteem. The world will expect you to accomplish something BEFORE you feel good about yourself.

RULE 3. You will NOT make 40 thousand dollars a year right out of high school. You won't be a vice president with a car phone, until you earn both.

RULE 4 - If you think your teacher is tough, wait till you get a boss. He doesn't have tenure.
